

Figure 1

Map showing the location and spatial extent of the regional sea turtle trawl survey conducted in 2000–03, 2008–09, and 2011 between Winyah Bay, South Carolina, (33.1°N) and St. Augustine, Florida, (29.9°N), and the 20-m and 200-m depth contours. Thick black bars denote breaks between geographic subregions within the study area.
